

## World Canvas Contributors (Light & Dark Gray)

The following table names the current data sources and Community Maps Program contributors to the World Canvas Maps (Light Gray and Dark Gray) hosted by Esri and provides information on their specific content. The base and reference maps were compiled to uniform cartography using a variety of best available sources from these data providers. Website links were operational when added to this document.

These tables are organized by scale: small scale and large scale. Version date refers to the year in which Esri received or downloaded the data from the original data provider. Dates with an asterisk (\*) indicate the source compilation date rather than the year received.

Light Gray Canvas currently has small scale global coverage to 72k and large scale regional coverage to 9k in all areas except Asia.

Dark Gray Canvas currently has small scale global coverage to 577k and large scale regional coverage to 9k in all areas except Asia.
