

# Esri Demographic Data Release Notes: Honduras

Release: September 2017

## Introduction

The Esri demographic dataset for Honduras provides key population and household attributes for use in a variety of applications. Release notes provide information such as the attribute list, the data's vintage, source, and changes to the dataset. The [methodology](#) document provides additional information regarding methods and definitions.

The September 2017 release includes the following updates to the existing [ArcGIS Online](#) service and maps for Honduras:

- The demographic data's vintage was updated from 2014 to 2016.
- The layer ID schema was updated to match new/removed geographies and generalizations.
- Male and Female population by age variables were no longer available and removed.

Esri demographic datasets are part of the [Living Atlas of the World](#). The Living Atlas is an incredible collection of maps and apps from around the world. It features Esri and user content that can enhance your research and analysis. You too can contribute your maps, apps, and story maps through the [Living Atlas contributor app](#).

## Using Demographic Data

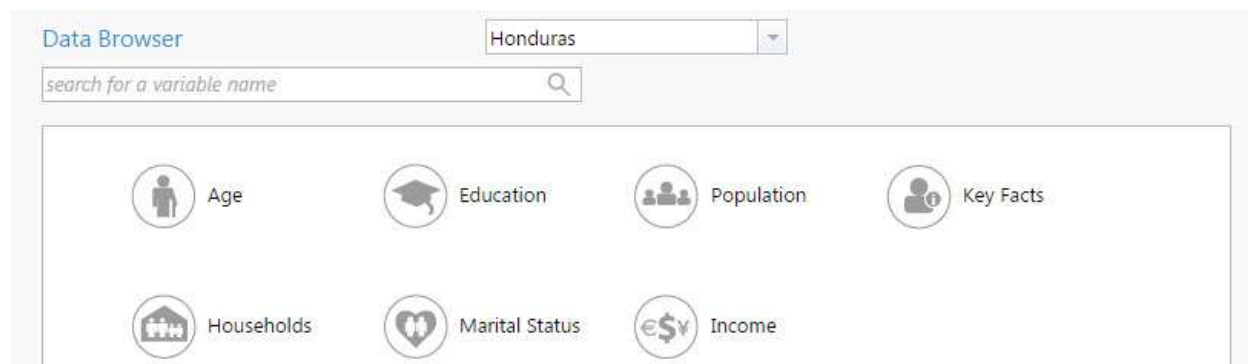

Government agencies use demographic data to provide better services to citizens. Marketers use demographic data to select store locations, target customers, and improve product mix. Utilities use demographic data to understand population changes in their service areas and to plan growth and distribution accordingly.

When you map Esri demographic layers along with your data, you can answer questions such as, Who are my customers? and Where should we open the next store? For example, map your retail locations or offices on top of Esri demographic attributes such as population, age, and purchasing power to understand the local community from a demographic perspective. Once you see the general pattern, Esri products such as [ArcGIS Online](#), [Business Analyst](#), and [ArcGIS Maps for Office](#), can help you find other suitable locations for new stores based on actionable criteria.

Use the [Data Browser](#) in Esri products such as [ArcGIS Online](#), [Business Analyst](#), and [ArcGIS Maps for Office](#) to easily find the attributes you want. Browse by category such as **Age**, or search by **Alias Name**, as shown below and on the next page:

# Esri Demographic Data Release Notes: Honduras

Release: September 2017

Map the attributes you select using the dataset's features, or create custom analysis areas. Esri products calculate new attribute values and answer questions such as "How many older people live within a five-minute drive of the proposed clinic?"

Continue below for additional details regarding the Honduras dataset.

## Dataset Information

Honduras	
3 Letter ISO Country code	HND
Currency	Honduran lempira
3 Letter Currency code	HNL
Number of attributes available	29
Number of geography levels	3

## Geographic Levels and Feature Counts

	Geography Levels Available for Honduras	Geography Levels Available through ArcGIS.com maps	Feature Count
Country	✓	✓	1
Department	✓	✓	18
Municipality	✓	✓	298

## Attribute Lists

Refer to the associated csv file for a list of attributes. The following information is included for each attribute:

**Variable ID** Unique variable ID that consists of no more than 10 characters

**Alias Name** Description associated with **Variable ID**.

Release: September 2017

- Category** Shows the [Data Browser](#) category for each attribute.
- Data Collection** Shows the data collection within the **Category**.
- Field Category** Shows the field category within the **Data Collection**.
- Long Description** Long description associated with Variable ID.
- Year** Vintage represents the year for which projections were created.

## Change Summary

### Changes to Geography Level Names

None.

### New Attributes

Attribute Name	Alias Name	Category
POPDENS_CY	2016 Population Density	Population

### Attributes No Longer Available

Attribute Name	Alias Name	Category
MAGE01_CY	2014 Male Population 0-14 (MBR)	Age
MAGE02_CY	2014 Male Population 15-29 (MBR)	Age
MAGE03_CY	2014 Male Population 30-44 (MBR)	Age
MAGE04_CY	2014 Male Population 45-59 (MBR)	Age
MAGE05_CY	2014 Male Population 60+ (MBR)	Age
FAGE01_CY	2014 Female Population 0-14 (MBR)	Age
FAGE02_CY	2014 Female Population 15-29 (MBR)	Age
FAGE03_CY	2014 Female Population 30-44 (MBR)	Age
FAGE04_CY	2014 Female Population 45-59 (MBR)	Age
FAGE05_CY	2014 Female Population 60+ (MBR)	Age
