WHO ARE WE?

These high density city neighborhoods are characterized by a relatively young foreign-born population who have embraced the American lifestyle, yet retained their cultural integrity. To support their lifestyle, City Strivers residents commute long distances to find work in the service, healthcare, or retail industry. Their hard-earned wages and salary income goes toward relatively high rents in older multiunit buildings, but they’ve chosen these neighborhoods to maintain ties to their culture. Single parents are often the recipients of Supplemental Security Income and public assistance, but their close-knit community provides the invaluable support needed while they work. City Strivers consumers are bold in their purchasing decisions; they seek out deals on branded clothing, sometimes indulge in restaurants and personal services, and splurge on their cable TV package.
