

ArcInfo Workstation Product Life Cycle Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#)

Notes:

- The ArcInfo Workstation extensions carry the same Product Life Cycle as the main ArcInfo Workstation product.
- All patches and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
10.0	June 2010	June 2010		X January 2012		ArcInfo Workstation 10 is the last release of ArcInfo Workstation. However, ArcInfo Workstation 10 will be able to be used in conjunction with newer versions of ArcGIS Desktop. (See the 10 & 10.1 deprecation plans for more details).
