

BusinessMAP Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Notes:

- There will be no further releases, updates, or patches for BusinessMAP products.
- All patches available for a particular version have the same support status as the version they address.
