

ArcWeb Services APIs Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#)

Notes:

- The ArcWeb Services APIs include SOAP, REST, OpenLS, ArcWeb Explorer JavaScript, ArcWeb Explorer Flex and the ArcWeb Mobile Toolkit (J2ME).
- All patches and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
SOAP V2006.1	Nov 2006			X		
SOAP V2006	Nov 2005			X
