

## MapObjects-Java Edition Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#)

### Notes:

- MapObjects-Java Edition v 2.3.3 is the final release. This version is released as a “mature” product in the product life cycle and will be retired at the end of July 2010.
- MapObjects-Java Edition is now in maintenance mode only. We will not be certifying new environments any longer.
- All patches and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.
