

Maplex Product Life Cycle Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Policy](#).

Notes:

ArcGIS Desktop includes the following products: ArcInfo Desktop, ArcEditor, ArcView, and their extensions.

- All service packs, patches, and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
3.5	May 2005				X Dec 2010	This is a retired version
