

PC ArcInfo / DAK Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Notes:

- The PC ArcInfo extensions carry the same Product Life Cycle as the main PC ArcInfo product.
- All patches and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
3.5					X	This is a retired version
3.4.2					X	This is a retired version
