

ArcSDE Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#)

Notes:

- ArcSDE includes ArcSDE for Coverages and the ArcSDE CAD Client product.
- Continued database vendor support for the specific database version is required. See the database vendor website for more details about their product.
- All patches and hot fixes available for a particular version have the same support status as the version they address
- Dates listed in a support column provide the date on which the product entered that support level.

Version	Release Date	General Availability	Extended Support	Mature Support	Retired	Notes
