

Esri Defense Solution Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to ESRI users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Notes:

- Esri Defense Solutions include Military Analyst Extension and the Military Overlay Editor (MOLE).
- The ArcGIS Desktop extensions carry the same Product Life Cycle as the main ArcGIS Desktop product.
- All service packs, patches, and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.

| Version | Release Date | General Availability | Extended Support | Mature Support | Retired | Notes |
|---------|--------------|----------------------|------------------|----------------|----------------|---|
| 10 | July 2010 | X July 2010 | | | | Released on July 14, 2010 |
