

## Esri Production Mapping Product Life Cycle Support Status

The Product Life Cycle Support Policy is designed to help communicate to Esri users the technical support resources available during a product's life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Support Policy](#).

Esri Production Mapping provides efficient production and maintenance of data and cartographic products.

### Notes:

- All service packs, patches and hot fixes available for a particular version have the same support status as the version they address.
- Dates listed in a support column provide the date on which the product entered that support level.
