

ArcExplorer -- Java Edition 2.3 System Requirements

This PDF contains system requirements information, including hardware requirements, best performance configurations, and limitations, for ArcExplorer -- Java Edition 2.3.

- [Macintosh 10.2, 10.3, 10.4](#)
- [PC-Intel Windows XP](#)

ArcExplorer -- Java Edition for Education 2.3 on Macintosh 10.2, 10.3, 10.4

| | |
|-------------------------------|---|
| <i>Product:</i> | ArcExplorer -- Java Edition for Education 2.3 |
| <i>Platform:</i> | Macintosh |
| <i>Operating System:</i> | 10.2, 10.3, 10.4 |
| <i>Shipping/Release Date:</i> | May 11, 2007 |

Hardware Requirements

Memory/RAM:

256 MB or more recommended

Disk Space Requirements:

100 MB

Compatibility Notes

Installation Note: ArcExplorer-Java Edition for Education (AEJEE) installs a Java Virtual Machine (JVM) during the setup process. If you are installing on a system that also runs ArcIMS and/or ArcExplorer—Java Edition, it is recommended that you use the JVM installed with the AEJEE product. If you attempt to use the same Java VM also used by ArcIMS and/or ArcExplorer, all three environments may destabilize, causing unexpected runtime results. This is because the ArcSDE JARs, JAI JARs and native files, JSSE JARs, and possibly other JAR files could potentially be mixed into the same JRE extension location as older versions of the same products. Even though the JAR file names may be different, the VM could possibly encounter the same package names within these JAR files.

ArcExplorer -- Java Edition for Education 2.3 on PC-Intel Windows XP

| | |
|-------------------------------|---|
| <i>Product:</i> | ArcExplorer -- Java Edition for Education 2.3 |
| <i>Platform:</i> | PC-Intel |
| <i>Operating System:</i> | Windows XP |
| <i>Shipping/Release Date:</i> | May 11, 2007 |

Hardware Requirements

Processor:

Intel Pentium III or higher

Memory/RAM:

256 MB or more recommended

Display Properties:

24 bit color depth

Disk Space:

100 Mb

Notes:

VGA or higher resolution monitor (Graphics card required)
