ArcGIS Data Appliance 3.1 System Requirements

[Click here](#) to view the ArcGIS Data Appliance 4.0 system requirements.

ArcGIS Data Appliance 3.1 has been tested and certified to work in the following ArcGIS Server environments.

ArcGIS Server	Operating System	Web Server
ArcGIS Server for the Microsoft .NET Framework Standard or Advanced Enterprise 9.3.1	Microsoft Windows Server 2008 (64-bit) Standard	IIS 7.0
ArcGIS Server for the Microsoft .NET Framework Standard or Advanced Enterprise 9.3 SP1	Microsoft Windows Server 2003 (32-bit) Standard	IIS 6.0
ArcGIS Server 9.3.1 for the Java Platform	Red Hat Enterprise Linux AS/ES 4.0 Update 5 (32-bit)	Apache 2.2.4 with Tomcat 6.0.13

The ArcGIS Data Appliance may work in other environments supported by ArcGIS Server, but the ArcGIS Data Appliance 3.1 has not been tested and certified on those environments.
