<i>Operating System:</i>	Windows 98/Me/2000, Windows NT, and Windows XP
<i>Shipping/Release Date:</i>	April 4, 2002

### Software Requirements

---

#### Microsoft XML Parser

The ArcPad Application Builder requires Microsoft XML Parser (MSXML) 3.0 Service Pack (SP) 2 or higher. The MSXML 3.0 SP 2 release is included with Windows XP and Internet Explorer 6.0. If you already have one of these products, you do not need to upgrade. If you do not, you can download [MSXML 3.0 SP 2](#).

#### Microsoft Script Encoder

ArcPad Studio allows you to encode your customization and VBScript source code files using the Microsoft Script Encoder. Encoding your files allows you to protect your development investment by making your source files unreadable. Download the [Microsoft Script Encoder](#).
