

World Street Map Contributors

The following table names the current Community Maps Program contributors to the World Street Map hosted by Esri and provides information on their specific content. The basemap was compiled to uniform cartography using a variety of best available sources from these data providers. Website links were operational when added to this document.

These tables are organized by scale: small scale and large scale. Version date refers to the year in which Esri received or downloaded the data from the original data provider. Dates with an asterisk (*) indicate the source compilation date rather than the year received.

Small Scale (591m–577k)
