## Data Source

- Data:© Michael Bauer Research GmbH 2025 based on © Instat, Eurostat.
- Boundaries:© Michael Bauer Research GmbH, Nuremberg, Germany, 2025.
- Settlement Points: The settlement points utilized by this dataset were created using 2023 OpenStreetMap (OSM) Building Footprints, Microsoft Global ML Building Footprints, and the European Commission Global Human Settlement Layer (GHSL). More information about the data can be found here: <https://www.openstreetmap.org>, <https://github.com/microsoft/GlobalMLBuildingFootprints>, <https://ghslsys.jrc.ec.europa.eu>. The buildings were constrained to exclude nonresidential units that could be identified. The settlement points were verified and improved using the latest Esri imagery and Esri Street Map Premium Layers. When necessary, household values were distributed evenly onto multiunit residential buildings with a top-down approach using the Michael Bauer Research household values from the lowest level geography.

## Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Population projections at the national level declined by 10.92% compared to former estimates; this difference is attributed to the utilization of the Census 2023 data from the Institute of Statistics in Albania and impacts the other dependent variables. Consumer Spending projections in national currency for 2024 show variations compared to 2023 with shifts within categories due to revision of expenditure data.
