EDUC08_CY	2023 Pop 10+/Edu: No Education	Education
EDUC_BASE	2023 Education Attainment Base	Education
MRST_BASE	2023 Marital Status Base	Marital Status

Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Population projections at the national level declined by 0.45% compared to former estimates; this difference is attributed to updates to United Nations data based on input data from the National Statistic Committee of the Republic of Belarus. The Purchasing Power and Consumer Spending projections in national currency for 2024 show an upward trend due to inflation.

Other Data Notes

For reasons of data privacy, for areas with less than 10 inhabitants, all given data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average, and all other variables are set to zero. For Postal Codes, Households are based on the household size of the respective Raioni. Age, Gender, Marital Status, and Education are based on the distribution of the respective Raioni. Unemployed Persons, Purchasing Power, and Consumer Spending are based on per capita values of the respective Raioni.
