

Belize

Release: October 2023

Data Source

Release: October 2023
Data: © Michael Bauer Research GmbH 2023 based on © Statistical Institute of Belize, UN.
Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023.
Settlement Points: These settlement points were created using 2023 OpenStreetMap (OSM) Building Footprints, Microsoft Global ML Building Footprints. More information about the data can be found here: <https://www.openstreetmap.org> and <https://github.com/microsoft/GlobalMLBuildingFootprints>. The buildings were constrained to include only residential housing units. The buildings were verified and improved upon using the latest Esri imagery.

Change Notes

Market Data are now projections for 2022 (before: 2020). Unemployed persons are shown for 2021 (before 2019). Due to a revision of the national input data, there are higher deviations in the Unemployment data.

The settlement points have been updated and are newer and more detailed than the previous data. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes
