

# Barbados

Release: October 2023

## Data Source

**Release:** October 2023

**Data:** © Michael Bauer Research GmbH 2023 based on © Barbados Statistical Service, UN.

**Boundaries:** © Michael Bauer Research GmbH, Nuremberg, Germany, 2023.

**Settlement Points:** These settlement points were created using OpenStreetMap (OSM) Building Footprints. Esri is a supporter of the OSM project, [www.OpenStreetMap.org](http://www.OpenStreetMap.org). The buildings were constrained to include only residential housing units. The buildings were verified and improved upon using the latest Esri imagery and HERE (Esri Street Map Premium Layers (LandArea, BuiltUpArea)). When necessary, household values were distributed evenly onto multiunit residential buildings using a top-down approach with the Michael Bauer Research household values from the lowest level geographies.

## Dataset Information

Barbados	
3 Letter ISO Country code	BRB
Currency	Barbadian dollar
3 Letter Currency code	BBD
Number of attributes available	26
Number of geography levels	2

## Geography Levels

Geography Levels	Geography Levels Available for Barbados	Available through ArcGIS.com Maps	Feature Count
Country	X	X	1
Parishes	X	X	11

## Data Apportionment Settings

Learn about [data apportionment](#)

Threshold Upper Bound	Aggregation Method	Level of Geography
150 km	Block Apportion	BB.Parishes
more	Centroids In Polygon	BB.Parishes

# Barbados

Release: October 2023

## Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

## Change Notes

Market Data are now projections for 2022 (before: 2020).

The updated settlement points have been constrained using current MBR boundaries. These settlement points could result in minor changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

## Other Data Notes

None.
