

Cabo Verde

Release: October 2023

Data Source

Release: October 2023

Data: © Michael Bauer Research GmbH 2023 based on © Instituto Nacional de Estatística , UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on. © INGT. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.

Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>.

Change Notes

Market Data are now projections for 2023 (before: 2021). Unemployed persons are shown for 2022. The Purchasing Power projections for 2023 show a negative trend due to a revision of official macroeconomic input data. A 9% national population decrease results from New Census 2021 data showing a decline compared to the UN figure and was included in the new projection for 2023. New available input data from the Census 2021 was also used for calculating all Market Data. Due to a new structure for Education, higher deviations may occur in comparison to the previous version.

The settlement points have been updated from Worldpop.org raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
