## Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Utilization of updated input data from official statistics has led to deviations in Marital Status. Consumer Spending projections in national currency for 2024 show variations compared to 2023 with shifts within categories due to revision of expenditure data.

The settlement points utilized by this dataset were updated from Nexiga Jan 2023 Residential Building Centroids to the Jan 2024 version of the data. This update resulted in minor change that will alter previously run data apportionment values in some trade areas.

## Other Data Notes

For reasons of data privacy, for areas with less than 10 inhabitants, all given data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average, and all other variables are set to zero. For Postal Codes, Marital Status is based on the distribution of the respective Gemeinden. Unemployed Persons are based on per capita values of the respective Gemeinden.
