Dominican Republic

Release: October 2023

Data Source

Release:	October 2023
Data:	© Michael Bauer Research GmbH 2023 based on © Oficina Nacional de Estadística, UN.
Boundaries:	© Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on. © Oficina Nacional de Estadística, República Dominicana,. Elaborado a partir de la base cartográfica digital del IX Censo Nacional de Población y Vivienda 2010, updated to vintage 2021 by Michael Bauer Research GmbH. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.
Settlement Points:	These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: https://ghslsys.jrc.ec.europa.eu.

None.

Change Notes

Market Data are now projections for 2022 (before: 2020). The Purchasing Power projections for 2022 show a positive trend due to high inflation.

The settlement points have been updated from Esri raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
