

Guadeloupe

Release: October 2023

Data Source

Release: October 2023

Data: © Michael Bauer Research GmbH 2023 based on © Insee, UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on. © Institut National de l'Information Géographique et Forestière 2016, updated to vintage 2021 by Michael Bauer Research GmbH. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.

Settlement Points: These settlement points were created using 2023 OpenStreetMap (OSM) Building Footprints, Microsoft Global ML Building Footprints. More information about the data can be found here: <https://www.openstreetmap.org> and <https://github.com/microsoft/GlobalMLBuildingFootprints>. The buildings were constrained to include only residential housing units. The buildings were verified and improved upon using the latest Esri imagery.

Change Summary

Changes to geography level names

None.

New Attributes

Attribute Name	Alias Name	Category
EDUC_BASE	2022 Education Attainment Base	Education
HTYP_BASE	2022 Households by Type Base	Households
MRST_BASE	2022 Marital Status Base	Marital Status
UNEMP_CY	2021 Unemployed Population	Jobs

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2022 (before: 2020). Unemployed persons are shown for 2021 (before 2019). The Purchasing Power projections for 2022 show an upward trend due to significant economic growth.

The settlement points have been updated with newer and more detailed data. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
