Change Summary

Changes to geography level names

None.

New Attributes

Attribute Name	Alias Name	Category
HTYP01_CY	2022 HHs: Single Person Household	Households
HTYP02_CY	2022 HHs: Married Couples or Cohabitants	Households
HTYP03_CY	2022 HHs: Single Parents with a Child	Households
HTYP04_CY	2022 HHs: HHs w/ 2+ Nuclear Fam or w/o Nuclear Fam	Households
HTYP_BASE	2022 Households by Type Base	Households

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2022 (before: 2021). Unemployed persons are shown for 2021 (before 2020). Consumer Spending in 2022 in Europe shows variations compared to 2021 with shifts within categories due to the lifting of restrictions under the Covid 19 pandemic. Using new input data from the official statistics leads to deviations in Unemployment data.

The updated settlement points have been constrained using current MBR boundaries. These settlement points could result in minor changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

Unemployed persons are based on the per capita values of the respective NUTS3-Areas. Unemployed persons are shown on basis of per capita values of respective NUTS3 Areas. Households by Income are based on the per household values of the respective Dimoi. Households by Type are based on the per household values of the respective Dimoi. Education is shown on basis of per capita values of respective Dimoi. Marital Status is shown on basis of per capita values of respective Dimoi.
