

# Greenland

Release: June 2024

## Data Source

**Release:** June 2024

**Data:** © Michael Bauer Research GmbH 2024 based on © Statistics Greenland, UN.

**Boundaries:** © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH contains © the dataset "The coast lines of Greenland" by The Geological Survey of Denmark and Greenland (GEUS). GEUS does not assume any liability in respect of the consequences of the Customer's use of the coast line data. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.

**Settlement Points:** These settlement points were created using 2023 OpenStreetMap (OSM) Building Footprints. More information about the data can be found here: <https://www.openstreetmap.org>. The buildings were constrained to include only residential housing units. The buildings were verified and improved upon using the latest Esri imagery and HERE (Esri Street Map Premium Layers (LandArea, BuiltUpArea)). When necessary, household values were distributed evenly onto multiunit residential buildings using a top-down approach with the Michael Bauer Research household values from the lowest level geographies.

## Dataset Information

Greenland	
3 Letter ISO Country code	GRL
Currency	Danish krone
3 Letter Currency code	DKK
Number of attributes available	26
Number of geography levels	2

## Geography Levels

Esri Geography Name	Local Geography Name	Available through ArcGIS.com Maps	Feature Count
Country	Greenland	X	1
Municipalities	Kommuner	X	6

## Data Apportionment Settings
