Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Population projections at the national level declined by 0.19% compared to former estimates; this difference is attributed to updates to Eurostat data based on input data from the Italian National Institute of Statistics. Consumer Spending projections in national currency for 2024 show variations compared to 2023 with shifts within categories due to new data from official statistics.

Other Data Notes

For reasons of data privacy, for areas with less than 10 inhabitants, all given data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average, and all other variables are set to zero.
