150 km	Block Apportion	JO.Governorates
more	Centroids In Polygon	JO.Governorates

Jordan

Release: November 2022

Change Summary

Changes to geography level names

None.

New Attributes

Attribute Name	Alias Name	Category
EDUC_BASE	2022 Education Attainment Base	Education
MRST_BASE	2022 Marital Status Base	Marital Status

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2022 (before: 2021). Unemployed persons are shown for 2021 (before 2020). Using new input data from the official statistics leads to higher deviations in Population and the respective dependent variables as well as Unemployment data.

The updated settlement points have been constrained using current MBR boundaries. These settlement points could result in minor changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
