

# Esri Demographic Data Release Notes: Japan

Release: December 2020

## Introduction

The Esri demographic dataset for Japan provides key population, and household attributes for use in a variety of applications. Release notes provide information such as the attribute list, vintage, source, and changes to the dataset. Refer to the associated csv file for a list of attributes.

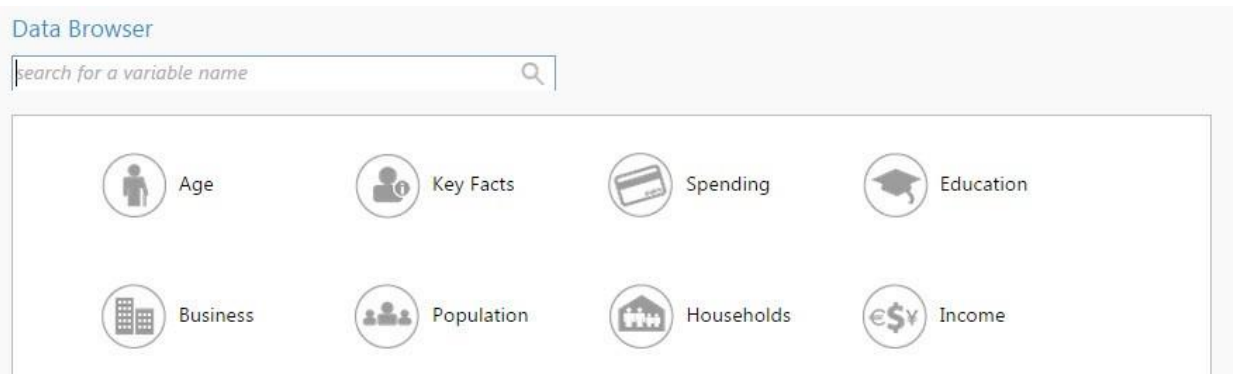

Esri demographic datasets are part of the [Living Atlas of the World](#). The Living Atlas is an incredible collection of maps and apps from around the world. It features Esri and user content, that can enhance your research and analysis. You too can contribute your maps, apps, and story maps through the [Living Atlas contributor app](#).

## Using Demographic Data

Government agencies use demographic data to provide better services to citizens. Marketers use demographic data to select store locations, target customers, and improve product mix. Utilities use demographic data to understand population changes in their service areas and to plan growth and distribution accordingly.

When you map Esri demographic layers along with your data, you can answer questions such as “who are my customers?” and “where should we open the next store?” For example, map your retail locations or offices on top of Esri demographic attributes such as population, age, and purchasing power, to understand the local community from a demographic perspective. Once you see the general pattern, Esri products such as [ArcGIS Online](#), [Business Analyst](#), and [ArcGIS Maps for Office](#), can help you find other suitable locations for new stores based on actionable criteria.

Use the [Data Browser](#) in Esri products such as [ArcGIS Online](#), [Business Analyst](#) and [ArcGIS Maps for Office](#) to easily find the attributes you want. Browse by category such as **Age**, or search by **Alias Name**, as shown below:

Map the attributes you select using the dataset’s features, or create your own custom analysis areas. Esri products calculate new attribute values and answer questions such as “How many older people live within a five minute drive of the proposed clinic?”

Continue below for additional details regarding the Japan dataset.

Release: December 2020

## Source

Data:

Boundaries:

## Dataset Information

Japan	
3 Letter ISO Country code	JPN
Currency	\
3 Letter Currency code	JPY
Number of attributes available	2203
Number of geography levels	4

## Geographic Levels and Feature Counts

	Geography Levels Available for Japan	Geography Levels Available through ArcGIS.com Maps	Feature Count
Country	X	X	1
Prefecture	X	X	47
Municipality	X	X	1902
Block	X	X	219100

## Data Apportionment Settings

Threshold Upper Bound	Aggregation Method	Level of Geography
150 km	Block Apportion	JP.Blocks
250 km	Centroids In Polygon	JP.Blocks
more	Centroids In Polygon	JP.Municipalities

## Attributes

Refer to the associated csv file for a list of attributes. The following information is included for each attribute:

**Variable ID** Unique variable ID that consists of no more than 10 characters

**Alias Name** Description associated with **Variable ID**.

**Category** Shows the [Data Browser](#) category for each attribute.

**Data Collection** Shows the data collection within the **Category**.

**Field Category** Shows the field category within the **Data Collection**.

# Esri Demographic Data Release Notes: Japan

Release: December 2020

**Long Description** Long description associated with Variable ID.

**Year** Vintage represents the year for which projections were created.

## Change Summary

### Changes to geography level names

Former geographic level name	New geographic level name	Change reason
	Prefecture	New geography level
	Municipality	New geography level
	Block	New geography level
Municipalities		No longer available
Prefectures		No longer available
Blocks		No longer available

### New Attributes

Attribute Name	Alias Name	Category
C0700	2018 Other Miscellaneous: Wedding / Funeral /Ceremonial Expenses	Spending
D0116_P	2015 Private Households: 1 Person Ratio	Households
D0117_P	2015 Private Households: 2 Persons Ratio	Households
D0118_P	2015 Private Households: 3 Persons Ratio	Households
D0119_P	2015 Private Households: 4 Persons Ratio	Households
D0123_P	2015 Private Households: 5+ Persons Ratio	Households
