

Cambodia

Release: November 2022

Data source

Release: November 2022
Data: © Michael Bauer Research GmbH 2022 based on © National Institute of Statistics, UN.
Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2022.
Settlement Points: WorldPop.org 100m Unconstrained UN adjusted projected 2020 population grid, verified with Esri imagery, Constrained with HERE streets, Voids filled with OSM

Dataset Information

Cambodia	
3 Letter ISO Country code	KHM
Currency	Cambodian riel
3 Letter Currency code	KHR
Number of attributes available	27
Number of geography levels	2

Release: November 2022

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2022 (before: 2021). Unemployed persons are shown for 2021 (before 2020). The Purchasing Power projections for 2022 show an upward trend due to economic growth.

The settlement points have been updated from the Esri raster-based points to the Worldpop.org raster-based points. The Worldpop.org data uses newer input data than the Esri raster-based data, more information can be found on Worldpop.org. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
