

Liechtenstein

Release: February 2024

Data Source

Release: February 2024

Data: © Michael Bauer Research GmbH 2023 based on © Amt für Statistik, UN.

Boundaries: © Michael Bauer Research GmbH 2023 based on © Bundesamt für Landestopografie swisstopo.

Settlement Points: These settlement points were created using November 2022 OpenStreetMap (OSM) Building Footprints. Esri is a supporter of the OSM project, www.OpenStreetMap.org. The buildings were constrained to include only residential housing units. The buildings were verified and improved upon using the latest Esri imagery and Geonames point data.

Dataset Information

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2023 (before: 2022). The Purchasing Power projections for 2023 show a downward trend due to a revision of official macroeconomic input data. Consumer Spendings 2023 shows high deviations to last years delivery due to high inflation in almost all European countries and significant volatility of the raw data of the official statistical offices in the aftermath of Covid-19 pandemic. Using new input data from the official statistics leads to deviations in Households by Types and Education. Both variables have a high variation due to small numbers.

No changes were made to these settlement points since the last MBR release.

Other Data Notes

Household Types are based on per-household-values of the respective Gemeinden. Education is based on per-capita-values of respective Gemeinden. Marital Status is based on per-capita-values of respective Gemeinden.
