Settlement Points: The settlement points utilized by this dataset were created using November 2022 OpenStreetMap (OSM) Building Footprints. Esri is a supporter of the OSM project, www.OpenStreetMap.org. The buildings were constrained to exclude nonresidential units that could be identified. The settlement points were verified and improved using the Administration du Cadastre et de la Topographie (Le Gouvernement du Grand-Duche de Luxembourg), Esri Imagery, Geonames point data, and HERE based Esri Street Map Premium Layers. When necessary, household values were distributed evenly onto multiunit residential buildings with a top-down approach using the Michael Bauer Research household values from the lowest level geography.

Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Utilization of updated input data from official statistics has led to deviations in the number of Unemployed Persons. Consumer Spending projections in national currency for 2024 show variations compared to 2023 with shifts within categories due to revision of expenditure data.

Other Data Notes
