Mexico Release: October 2023

Data Source

Release:	October 2023
Data:	© National Institute of Statistics and Geography (INEGI), 2020
Boundaries:	© National Institute of Statistics and Geography (INEGI), 2020
Settlement Points:	These settlement points were created using 2020 INEGI Mexico National Housing Inventory Blocks and Localities. More information about the data can be found here: https://www.inegi.org.mx.

Dataset Information

Mexico				
3 Letter ISO Country code	MEX			
Currency	Mexican peso			
3 Letter Currency code	MXN			
Number of attributes available	232			
Number of geography levels	4			

Geography Levels

Geography Levels	Geography Levels Available for Mexico	Available through ArcGIS.com Maps	Feature Count
Country	Х	Х	1
States	Х	Х	32
Municipalities	Х	Х	2469
Basic Geostatistical Areas	Х	Х	81451

Data Apportionment Settings

Threshold Upper Bound	Aggregation Method	Level of Geography
150 km	Block Apportion	MX.AGEB
250 km	Centroids In Polygon	MX.AGEB
more	Centroids In Polygon	MX. Municipalities

Change Summary

Changes to geography level names

None.

New Attributes

Attribute Name	Alias Name	Category
AGEDEP_CY	2020 Age Dependency Ratio	Age
CHLDDEP_CY	2020 Child Dependency Ratio	Age
P_25A59	2020 Population 25-59 Yr(s)	Age
P_25A59_F	2020 Female Population 25-59 Yr(s)	Age
P_25A59_M	2020 Male Population 25-59 Yr(s)	Age
REL_H_M	2020 Males to Females Ratio	Population
SENRDEP_CY	2020 Senior Dependency Ratio	Age

Attributes no longer available

None.

Change Notes

New calculated Population by Age and Age Dependency variables were created to address gaps in the previous Population by Age data. The settlement points have been updated with newer INEGI data. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

The data source for this dataset is the Population and Housing Census 2020 carried out by the National Institute of Statistics and Geography (INEGI) to obtain information, count the population living in Mexico and understand their main demographic, socioeconomic and cultural characteristics. The data has great thematic diversity and different levels of disaggregation.
