

# Nigeria

Release: October 2023

## Data Source

Release: October 2023

Data: © Michael Bauer Research GmbH 2023 based on © National Bureau of Statistics, UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on. © GRID3 Nigeria, CC BY 4.0. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.

Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>.

## Dataset Information

Nigeria	
3 Letter ISO Country code	NGA
Currency	Nigerian naira
3 Letter Currency code	NGN
Number of attributes available	26
Number of geography levels	3

## Geography Levels

Geography Levels	Geography Levels Available for Nigeria	Available through ArcGIS.com Maps	Feature Count
Country	X	X	1
States	X	X	37
Local Government Areas	X	X	774

# Nigeria

Release: October 2023

## Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

## Change Notes

Market Data are now projections for 2023 (before: 2021). The Purchasing Power projections for 2023 show a negative trend due to a revision of official macroeconomic input data. Using new national input data from the official statistics leads to deviations in Age and Gender.

The settlement points have been updated from Worldpop.org raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

## Other Data Notes

None.
