Other Data Notes

For reasons of data privacy, for areas with less than 10 inhabitants, all given data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average, and all other variables are set to zero. For Postal Codes, Households by Income, Households by Type, Education, and Marital Status are based on the distribution of the respective Kommuner. Unemployed Persons are based on per capita values of the respective Kommuner.
