Release: February 2025

## Data Source

Release: February 2025

Data: Dataset is based on the 2023 New Zealand national census published by Statistics New Zealand. Stats NZ data is provided by Eagle Technology.

Boundaries: Boundaries are provided by Eagle Technology.

Settlement Points: These settlement points were created using the 2023 LINZ Data Service NZ Street Address points. A majority of the non-residential points were identified and removed using Esri Imagery and Foursquare Places.

# New Zealand

Release: February 2025

## Change Notes

The settlement points have been updated from the previous release of the 2023 LINZ Data Service NZ Street Address points. These settlement points are an improvement over the previous version and could result in significant changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

## Other Data Notes

New Zealand 2023 national census data shows key national and regional statistics from the first release of 2023 Census data.
