Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Population projections at the national level declined by 0.40% compared to former estimates; this difference is attributed to updates to Eurostat data based on input data from the National Institute of Statistics of Romania. The Purchasing Power and Consumer Spending projections in national currency for 2024 show an upward trend due to inflation.
