Threshold Upper Bound	Aggregation Method	Level of Geography
150 km	Block Apportion	SA.Governorates
more	Centroids In Polygon	SA.Governorates

# Saudi Arabia

Release: November 2022

## Change Summary

Changes to geography level names

None.

### New Attributes

Attribute Name	Alias Name	Category
EDUC_BASE	2022 Education Attainment Base	Education
MRST_BASE	2022 Marital Status Base	Marital Status

Attributes no longer available

None.

## Change Notes

Market Data are now projections for 2022 (before: 2021). Consumer Spending 2022 shows deviations from 2020 with shifts within categories due to the different developments in the Covid-19 pandemic.

The updated settlement points have been constrained using current MBR boundaries. These settlement points could result in minor changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

## Other Data Notes

None.
