El Salvador

Release: October 2023

Data Source

Release:	October 2023
Data:	© Michael Bauer Research GmbH 2023 based on © Dirección General de Estadística y Censos, Banco Central De Reserva, UN.
Boundaries:	© Michael Bauer Research GmbH, Nuremberg, Germany, 2023.
Settlement Points:	These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: https://ghslsys.jrc.ec.europa.eu.

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2022 (before: 2020). Unemployed persons are shown for 2021 (before 2019). Due to a revision of the national input data, there are higher deviations in the Unemployment data.

The settlement points have been updated from Esri raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
