

# Serbia

Release: June 2024

## Data Source

- Release:** June 2024
- Data:** © Michael Bauer Research GmbH 2024 based on © Statistical Office of the Republic of Serbia, Eurostat.
- Boundaries:** © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on © Register of Spatial Units, Republic Geodetic Authority, <https://geosrbija.rs>, 10.06.2021, updated to vintage 2023 by Michael Bauer Research GmbH. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.
- Settlement Points:** These settlement points were created using the 2022 European Commission Global Human Settlement Layer (GHSL). More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>. The data was verified using the latest Esri imagery and Michael Bauer Research 2021 population.

## Dataset Information

Serbia	
3 Letter ISO Country code	SRB
Currency	Serbian dinar
3 Letter Currency code	RSD
Number of attributes available	125
Number of geography levels	8

## Geography Levels

Esri Geography Name	Local Geography Name	Available through ArcGIS.com Maps	Feature Count
Country	Serbia	X	1
Postcodes1	Postcodes1		3
Regions	Regioni	X	4
Postcodes2	Postcodes2		20
Districts	Okruzi	X	25
Municipalities	Opstine	X	168
Postcodes5	Postcodes5		1177
Settlements	Naselja	X	4721

Release: June 2024

## Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

## Change Notes

Market Data are now projections for 2023 (before: 2022). Unemployed Persons are shown for 2022 (before 2021). The Purchasing Power projections for 2023 show an upward trend due to high inflation. Consumer Spending 2023 shows high deviations from last year's delivery due to high inflation in almost all European countries and significant volatility of the raw data of the official statistical offices in the aftermath of Covid-19 pandemic. Using new input data from the Census 2021 leads to deviations in Marital Status and Education data. Based on official statistics, the number of Unemployed Persons shows a significant decline due to an economic recovery after the Covid-19 pandemic. Eurostat data based on input data of the Statistical Office of the Republic of Serbia showed a 2% national population decline.

No changes were made to these settlement points since the last MBR release.

## Other Data Notes

Marital Status and Unemployed Persons are based on per capita values of respective Opstine. Data for Naselja of Bujanovac and Preševo are based on per household values or per capita values of respective Opstine. For these areas, all variables referring to currency and population related values are based on national average, all other variables are set to 0.
