Data Source

- Data: © Michael Bauer Research GmbH 2024 based on © Statistics Sweden, Eurostat.
- Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2024. Data Source for Digital Boundaries: 2024 Michael Bauer Research GmbH based on © Länsstyrelsen.
- Settlement Points: The settlement points utilized by this dataset were created using November 2022 OpenStreetMap (OSM) Building Footprints. Esri is a supporter of the OSM project, www.OpenStreetMap.org. The buildings were constrained to exclude nonresidential units that could be identified. The settlement points were verified and improved using Esri Imagery, Geonames point data, and HERE based Esri Street Map Premium Layers. When necessary, household values were distributed evenly onto multiunit residential buildings with a top-down approach using the Michael Bauer Research household values from the lowest level geography.

Change Notes

Market Data are now projections for 2024 (previously 2023). Unemployed Persons are shown for 2023 (previously 2022). Consumer Spending projections in national currency for 2024 show variations compared to 2023 with shifts within categories due to revision of expenditure data.

Other Data Notes

For reasons of data privacy, for areas with less than 10 inhabitants, all given data except Population and Household numbers are anonymized. For these areas, all variables simultaneously referring to currency and population are based on the national average, and all other variables are set to zero. For Postal Codes, Education is based on the distribution of the respective Kommuner. Unemployed Persons are based on per capita values of the respective Kommuner.
