

Tunisia

Release: October 2023

Data Source

Release: October 2023

Data: © Michael Bauer Research GmbH 2023 based on © Institut National de la Statistique, UN.

Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023. Data Source for Digital Boundaries: 2023 Michael Bauer Research GmbH based on. © le project map.tn, CC BY 2.0. All sources modified and enhanced by Michael Bauer Research GmbH, utilization only with authorization.

Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>.

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

None.

Change Notes

Market Data are now projections for 2023 (before: 2021). Unemployed persons are shown for 2022 (before 2020). Consumer Spendings for 2023 show significant deviations due to new input from the official household budget survey 2021.

The settlement points have been updated from Worldpop.org raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
