

Uganda

Release: October 2023

Data Source

Release: October 2023
Data: © Michael Bauer Research GmbH 2023 based on © Uganda Bureau of Statistics, UN.
Boundaries: © Michael Bauer Research GmbH, Nuremberg, Germany, 2023.
Settlement Points: These settlement points were created using the European Commission Global Human Settlement Layer (GHSL), 100 meter resolution 2025 Population Raster Layer. The points were verified using the latest Esri imagery. More information about the data can be found here: <https://ghslsys.jrc.ec.europa.eu>.

Dataset Information

Uganda	
3 Letter ISO Country code	UGA
Currency	Ugandan shilling
3 Letter Currency code	UGX
Number of attributes available	27
Number of geography levels	3

Change Summary

Changes to geography level names

None.

New Attributes

None.

Attributes no longer available

Attribute Name	Alias Name	Category
EDUC01B_CY	2021 Pop 15+/Edu: Incomplete Primary	Education
EDUC02B_CY	2021 Pop 15+/Edu: Completed Primary	Education
EDUC03B_CY	2021 Pop 15+/Edu: Secondary	Education
EDUC_BASE	2021 Education Attainment Base	Education

Change Notes

Market Data are now projections for 2023 (before: 2021). Unemployed persons are shown for 2022 (before 2020). The Purchasing Power projections for 2023 show a positive trend compared to the projections for 2021 due to an upward revision of the 2021 Purchasing Power. Methodological change within the ILO base data for Uganda regarding own-use production workers leads to a huge decrease in Unemployment data.

The settlement points have been updated from Worldpop.org raster-based points to newer and more detailed raster-based points. These settlement points are an improvement over the previous version and could result in changes to previously run values in some trade areas. Settlement points are used in the data apportionment algorithm to redistribute data variables to input polygon features.

Other Data Notes

None.
