

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference.

Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference.

Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.

DATA VINTAGE: 2020 NUMBER OF VARIABLES: 4,836

The Market Potential Data measures the likely demand for a product or service in an area.

The a or h following the five-digit product code denotes a consumer base of adults or households, respectively.

The \_B or \_l following the product code denotes the expected number of consumers or the Market Potential Index (MPI) for each product or service listed.

Variables in green are New for this release. Variables in gray italics have a Description Change . Variables in gold italics have been Discontinued due to survey changes, and are listed at the bottom of each table. These are also indicated in the Item Changes column for easy reference. Starting with the Summer 2020 Catalog, Market Potential tables have been modified.
