

# Esri American Community Survey (ACS) US-Tract Data Variable List

**DATA VINTAGE:** 2014-2018  
**NUMBER OF VARIABLES:** 1,383

Esri provides US demographics data from the American Community Survey (ACS). The ACS is the de facto replacement for sample data from the decennial census.  
 ACS = estimate; MOE = Margin of Error; REL = Reliability

ACS 2014-2018 Data Tables are available for the following geography levels:  
 US, States, Counties, Census Tracts, County Subdivisions, Places, CBSAs, and Congressional Districts. This data is not available for Block Groups, DMAs, or ZIP Codes.  
 The "ACS Field ID" column provides the original Census ACS field names for estimates, margin of error, and computed items. Reliability variables (REL) are calculated by ESRI, and do not have corresponding ACS Field IDs.

Variables in **green** are **New** for this release. Variables in *gray italics* have a *Description Change*. Variables or Tables in *gold italics* have been *Moved* or *Discontinued*.  
 These are also indicated in the Item Changes column for easy reference.
