WHO ARE WE?
Residents in these neighborhoods are young families primarily located in the Southwest. Children are the center of households that are composed mainly of married couples with children and single-parent families. Grandparents are caregivers in some of these households. Many are limited English speaking households. Much of the working-age population is employed in blue-collar occupations, specializing in skilled work, as well as building maintenance and service jobs. Spending is focused on the family and at-home entertainment.
