WHO ARE WE?
Close to one in five employed residents work in mining, oil and gas extraction, or quarrying industries. Economic BedRock is a very rural, primarily Southern market. Married-couple families reside in over half of the households, with a quarter of households that live in mobile homes. This socially conservative group earns a living working with their hands. In addition to mining, construction and agriculture are common industries for employment. They take pride in the appearance of their homes and their vehicles. Budget-minded residents enjoy home cooking, but nothing too fancy. This is a gregarious group that values time spent with friends.

OUR NEIGHBORHOOD
• Rural living; homes are sparsely located throughout the countryside.
• These families have roots in their communities and do not move often; over three-quarters of all households are owner occupied.
• Over half of owned homes are worth less than $100,000.
• Married-couple families make up over half the households.
• A quarter of all housing units are mobile homes; the rest are primarily single-family dwellings.
• High-vacancy rate—nearly one in six housing units is vacant.

SOCIOECONOMIC TRAITS

• Most residents did not go to college.
• They are slow to adopt technology; “if it’s not broken, don’t fix it,” mentality.
• TV is the main source of information, news, and entertainment.
• They make purchases for today because tomorrow is uncertain.
• They are happy to go to work whenever the opportunity presents itself.
• Budgeted vacations are taken within the US, not abroad.
