WHO ARE WE?

Metro Fusion is a young market. Many residents do not speak English fluently and have moved into their homes recently. They are highly mobile and over three quarters of households are occupied by renters. Many households have young children; a quarter are single-parent families. Most residents live in midsize apartment buildings. Metro Fusion is a hard-working market with residents that are dedicated to climbing the ladders of their professional and social lives.

OUR NEIGHBORHOOD

- Over 60% of the homes are multiunit structures located in the urban periphery.
- Three quarters of residents are renters, and rents are about thirteen percent less than the US average.
- Most housing units were built before 1990.
- Single-parent and single-person households make up over half of all households.

SOCIOECONOMIC TRAITS

- Younger residents are highly connected, while older residents do not have much use for the latest and greatest technology.
- They work hard to advance in their professions, including working weekends.
- They take pride in their appearance, consider their fashion trendy, and stick with the same few designer brands.
- They spend money readily on what’s hot unless saving for something specific.
- Social status is very important; they look to impress with fashion and electronics.

**RACE AND ETHNICITY** (Esri data)

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

**INCOME AND NET WORTH**

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

**AVERAGE HOUSEHOLD BUDGET INDEX**

The index compares the average amount spent in this market’s household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

**OCCUPATION BY EARNINGS**

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau’s American Community Survey.
