

RELEASE NOTES

These release notes highlight some general information about ArcGIS® StreetMap™ Premium Custom Roads Asia Pacific 2024 Release 1 as well as the changes between 2024 Release 1 and 2023 Release 1.

System Requirements:

StreetMap Premium Component	Software
FGDB and VTPK datasets for mapping and routing, and locators for geocoding	ArcGIS Pro 3.2.2 or 3.2.3; ArcGIS Enterprise 11.2 or later

See <https://links.esri.com/streetmap-premium/2024/sys-reqs>

With ArcGIS Pro 3.3 or later, there is a known issue with the [Create Mobile Map Package tool](#) that affects the rebuilding of the network. As a workaround, use ArcGIS Pro 3.2.3 or earlier to avoid this issue.

Creating mobile map packages with the [Create Mobile Map Package tool](#) in ArcGIS Pro 3.2.2 or later will result in .mmpk files where geocoding is only supported in the following versions:

1. ArcGIS Navigator iOS (22.1.0) or ArcGIS Navigator Android (22.1.0).
2. ArcGIS Runtime 100.14.1 or later.

Patches (strongly recommended):

See [Patches for ArcGIS StreetMap Premium](#) on the ArcGIS StreetMap Premium website.

My Esri Download or Media Contents:

- a. **AP_2024R1_Custom_Roads_Documentation.7z** – ArcGIS_StreetMap_Premium_Custom_Roads_Pro32, QuickStartGuide, and Release Notes PDF files, and Readme.txt and Esri User License Agreement link
- b. **AP_2024R1_Custom_Roads_FGDB_VTPK.7z.[001...00n]** – File geodatabase (.gdb), vector tile package (.vtpk) and project file (.aprx) folder
- c. **AP_2024R1_Custom_Roads_Locators.7z** – Locators folder

Refer to [ArcGIS_StreetMap_Premium_Custom_Roads_Pro32.pdf](#) and [Readme.txt](#) for more information.

Data Size:

	2024R1	2023R1
FGDB_VTPK dataset	60.9 GB	66.5 GB
Locators	22.5 GB	20.9 GB
Total	83.4 GB	87.4 GB

Dataset Changes:

FGDB

- a. Dataset includes TomTom 2024.03 data vintage.

Point Feature Classes

- b. No changes

Line Feature Classes

- c. No changes

Polygon Feature Classes

- d. No changes

Tables

- e. No changes

Refer to [ArcGIS_StreetMap_Premium_Custom_Roads_Pro32.pdf](#) for more information.

Locator Changes:

- a. See the Authoritative data sources column for reference datasets used in each country, in the [Geocode data coverage](#) page on the ArcGIS Developer website.
- b. Reference dataset includes TomTom 2024.06 vintage.
- c. Additional source data updates for Asia Pacific provided by the GIS user community through the Community Maps for Addresses program.
- d. See [What's new](#) on the ArcGIS StreetMap Premium website.
- e. See [What's new](#) in the ArcGIS Geocoding Service on the ArcGIS Developer website.

Network Dataset Changes:

None

Deprecations:

None
