

RELEASE NOTES

These release notes highlight some general information about ArcGIS® StreetMap™ Premium Custom Roads Latin America 2024 Release 1 as well as the changes between 2024 Release 1 and 2023 Release 1.

System Requirements:

StreetMap Premium Component	Software
FGDB and VTPK datasets for mapping and routing, and locators for geocoding	ArcGIS Pro 3.3.2 or later; ArcGIS Enterprise 11.2 or later

See [System Requirements for ArcGIS StreetMap Premium](#) on the ArcGIS StreetMap Premium website.

With ArcGIS Pro 3.3 and 3.3.1, there is a known issue with the [Create Mobile Map Package](#) tool that affects the rebuilding of the network. As a workaround, use ArcGIS Pro 3.2.4 or earlier or Pro 3.3.2 or later to avoid this issue.

Starting with ArcGIS Pro 3.2.2 or later, creating mobile map packages with the [Create Mobile Map Package](#) tool will result in .mmpk files where geocoding is only supported in the following versions:

1. ArcGIS Navigator iOS (24.1.0) or ArcGIS Navigator Android (24.1.0).
2. ArcGIS Runtime 100.15.6 or later.

Patches (strongly recommended):

See [Patches for ArcGIS StreetMap Premium](#) on the ArcGIS StreetMap Premium website.

My Esri Download or Media Contents:

- a. **LA_2024R1_Custom_Roads_Documentation.7z** – ArcGIS_StreetMap_Premium_Custom_Roads_Pro33, QuickStartGuide, and Release Notes PDF files, Readme.txt file, and Esri User License Agreement link
- b. **LA_2024R1_Custom_Roads_FGDB_VTPK.7z.[001...00n]** – File geodatabase (.gdb), vector tile package (.vtpk) and project file (.aprx) folder
- c. **LA_2024R1_Custom_Roads_Locators.7z** – Locators folder

Refer to ArcGIS_StreetMap_Premium_Custom_Roads_Pro33.pdf and Readme.txt for more information.

Data Size:

	2024R1	2023R1
FGDB_VTPK dataset	24.9 GB	23.6 GB
Locators	9.3 GB	6.2 GB
Total	34.2 GB	29.8 GB

Dataset Changes:

FGDB

Dataset includes TomTom 2024.06.005 data vintage.

Point Feature Classes

None

Line Feature Classes

None

Polygon Feature Classes

None

Tables

None

Refer to [ArcGIS_StreetMap_Premium_Custom_Roads_Pro33.pdf](#) for more information.

Locator Changes:

- a. Additional source data updates provided by the GIS user community through the Community Maps for Addresses program.
- b. See [What's new](#) on the ArcGIS StreetMap Premium website.
- c. See [What's new](#) in the ArcGIS Geocoding Service on the ArcGIS Developer website.

Refer to [Geocode with StreetMap Premium locators in ArcGIS Pro](#) and [Use the Locators](#) for more information.

Network Dataset Changes:

None

Deprecations:

None
